

LANCER CUDIMM RGB DDR5 MEMORY A NEW HORIZON OF SPEED

LANCER CUDIMM RGB DDR5 Memory

LANCER CUDIMM is specifically designed to meet the needs of high-performance computing. It utilizes carefully selected high-quality ICs and CUDIMM CKD (Clock Driver) components to effectively buffer and stabilize memory frequency, improving overall performance and reliability. This module adopts a heatsink made with 80% recycled aluminum and FSC certified packaging and has passed certification by the four major motherboard brands to ensure the best compatibility with the Intel Z890 chipset. CUDIMM is particularly suitable for big data operations such as AI generation and deep learning. It can also significantly accelerate 3D rendering and animation production, comprehensively improving work efficiency and productivity or overclock to 8,000MT/s to fully satisfy your inner gamer's need for ultimate performance.

Features

- CKD (Clock Driver) stabilizes performance
- Heatsink made with 80% recycled aluminum • Eco-friendly IMR friendly process enhances green gaming aesthetics
- Built-in Power Management IC
- On-Die Error Correcting Code
- Supports Intel® Core™ Ultra desktop processor (series 2) platforms

Specifications

- Heat Sink Color: Silver Grey
- Speed: DDR5 8400/8800/9200MT/s
- CAS Latencies: 40-52-52/42-54-54/42-56-56
- Module size: 24GB
- Packaging: 24GBx2
- Operating temperature: 0°C to 85°C
- Operating voltage: 1.4-1.45V
- Dimensions(LxWxH): 133.35 x 43.56 x 8mm
- Weight: 71.13g
- Warranty: Limited Lifetime Warranty
